AMEND THE AMENDMENTS

The year is 2025 and a lot of things have happened/changed in America. Pretend that one of the first ten amendments needs to be changed in order to keep up with what is going on in America. You need to decide which one amendment needs to be changed, and the reasons why this might happen. Once you have decided the amendment that needs to be changed, rewrite the amendment including the changes and what it should say according to you. If you feel that amendment needs to be more than just slightly changed, you can completely abolish the amendment and come up with an entirely new one.
